HOW TO PLAY

1 SET UP

Each person grabs a pen and a blob card.
Set a 1 minute timer (feel free to adjust to your group's pace).

Solo or pair? Doodle at your own pace & adjust as needed.

2 DRAW WHAT YOU SEE

Start the timer and get doodling! Use the blobs on your card as inspiration. Rotate to see different shapes and ideas.

When time's up, pass your card to the left.

Reset the timer and add to the doodle on your new card.

Keep passing and doodling until you get your original card back and it's mostly filled. If it's half-empty, go for a few more rounds!

3 SPARK A STORY

Draw a "Spark" card and read the storyline aloud.

Starting with your blob card, say the first 1-2 sentences of a story (e.g., "Every time I sneeze, my plants grow taller").

Pass your card to the next person to add a few more sentences (e.g., "Now my cactus is taking over my bed").

Keep going until the story feels complete—aiming for lots of funny, unexpected twists. Repeat for each blob card.

4 CONNECT HEART TO HEART

Draw a "Heart" card and read it aloud.

Take turns sharing your responses clockwise.

Optional: Take a silly group selfie with your finished cards & tag us! Write a postcard you've been meaning to send.
